## 4. Learning

4.1 We believe it is in the best interest of children engaging in remote learning to provide structured and sequenced remote learning, replicating their classroom experience as closely as possible, however we recognise that switching to remote learning will affect pupils and their families in a number of ways.

4.2 The learning methods selected will be based on:

- Being realistic and focusing on what is most important, recognising that remote learning can be more difficult for many pupils and providing appropriate support.
- Allowing flexibility in the completion of activities, understanding that families may have more than one child sharing home resources and that workspaces may be shared with multiple family members, including by designing activities that are accessible for all pupils, including those working offline.
- Ensuring remote education practices are inclusive including by tailoring the remote curriculum for pupils with SEND

4.3 We will use a range of delivery methods including:

- Directed online learning - Signposting to online learning resources

- Hard copy learning – Provision of hardcopy resources to complete offline
- Remote live lessons – Lesson delivered to camera; pupils log in to a platform to participate.
- Remote pre-recorded lessons - Staff delivery of lessons to camera (with no pupil presence) and made available to pupils online to access in their own time
- Synchronised learning – Staff delivery of lessons with both in school and remote pupil attendance

## 5. Resources

The trust will provide a combination of teaching and learning resources to support remote learning including, but not necessarily limited to:

- Work booklets
- Projects
- Past and mock exam papers
- Current online learning portals
- Educational websites
- Reading tasks
- Remote learning platforms and tools
- Pre-recorded video or audio lessons

## 6. Equipment

- 6.1 Pupils will need to use their own or family-owned equipment to access remote learning resources, unless the trust agrees to provide or loan equipment, e.g. laptops.
- 6.2 For pupils who cannot access digital devices at home, we will, where possible, apply for support from the government to provide devices.
- 6.3 If a pupil is provided with trust owned equipment, the pupil and their parent will need to sign the Acceptable Use Agreement on receipt of the equipment.

## 7. Remote Learning Platforms & Online Learning Tools

- 7.1 The Use of Remote Learning Platforms and Online Learning Tools is key to our ability to offer flexibility in our learning provision and offers the chance for greater efficiency, improved connectivity and collaboration between staff, governors, trustees and pupils, and flexible access to education for vulnerable and hard to reach children, supporting safeguarding and wellbeing agendas.
- 7.2 These tools will further support pupils who may currently be learning through Virtual Schools, or in hospital, to feel more integrated into the trust community.
- 7.3 We will ensure that the platforms and tools we use are secure, maintain privacy and have enterprise level security.

## 8. Safeguarding

- 8.1 Safeguarding and child protection remains as important in this environment as anywhere else, and staff members will apply the trust's safeguarding guidance to remote learning, just as they would to classroom

working - staff who become aware of any child protection concerns will continue to follow established safeguarding procedures.

8.2 We will adhere to all additional guidance on delivering learning for those children access provision at home.

8.3 When working remotely, we will ensure that the current Child Protection & Safeguarding Policy along with any addendums is adhered to at all times.

8.4 Clear reporting routes for pupils, staff, parents and carers to raise any safeguarding concerns in relation to remote online education are outlined in the Child Protection Policy and communicated to all children and staff.

## 9. Data Protection

9.1 Data Protection remains as important in this environment as anywhere else, and staff members will apply the trust's Data Protection Policies to remote learning, just as they would to classroom working - staff who become aware of any data breaches will continue to follow established data protection procedures.

9.2 This includes maintaining the same high standards of data protection, when sharing events and lessons remotely, as we would sharing any other sensitive, personal or confidential data.

9.3 Recording individuals will generate personal data including pupil images, names, contributions, login and contact details and will be protected, processed and retained in the same way as all personal data, in line with the trust's Data Protection Policies and Privacy notices and in accordance with our other policies including Acceptable Use, Off Site Working and Bring Your Own Device policies, as well as our Retention Schedule.

9.4 The Data Protection Act, UK GDPR and our policies require us to assess the lawful basis for Data Sharing and the Data Protection suitability of providers of services/platforms, and this information will be published in our Privacy Notices.

9.5 We will carry out DPIAs of third-party processors supplying remote and online learning and/or communications platforms and for any other processing deemed to require such.

9.6 We will follow our Acceptable Use of IT and Email policy when communicating with parents and pupils.

9.7 We will follow the procedures in our Data Protection Policy for recording, reporting and responding to data breaches, suspected data breaches and cyber security incidents.

## 10. Wellbeing

10.1 In addition to safeguarding, pupil wellbeing is a significant consideration in our planning for remote learning.

10.2 We will ensure our remote learning curriculum factors in support for pupils' mental and physical wellbeing and considers differentiation in our pupils.

This includes scheduling regular breaks in teaching, recommending fresh air and exercise-based activities and by ensuring a reasonable balance between online and offline activities.

## 11 School & home communications
