Ashbourne Primary School

Policy for use of photographs and recording equipment

The purpose of this policy is to set out the school's position in relation to use of photography and recording equipment by both staff and parents.

This policy should be read in conjunction with:

- Safeguarding Policy
- Staff Safer Working Policy
- Staff Code of Conduct Policy
- Online Safety Policy
- Data protection Policy

Aims

We aim to use photographs and recording equipment at Ashbourne Primary School for:

- Assessment, planning and recording
- Observation tools
- Information for visitors and parents
- Training purposes
- Teaching and learning resources
- A celebration of pupil's work
- For the school website, Class Dojo, Facebook page and displays

There are different ways in which these images will be used, i.e.:

- Images taken and used personally by parents
- Images which may be displayed in and around the school
- Images which will be shared with others in the school community
- Images which are available to a wider audience

This policy intends to clarify arrangements for the use of images and consent required in each of these circumstances.

Parents' use of images

When parents attend events and performances within school, they may take photographs of their children for their own use. Photography/videoing will not be permitted in areas where children are changing into costumes/PE kits etc. It is explained to parents that images should not be shared on social media without the permission of other parents.

Use of images within school

Parental permission will be sought through a consent form completed on admission to the school, for the use of photographic/video images within the school. Such images will only be displayed inside the school building. It is important to note that this category includes professionally taken class group photographs.

Sharing images with the school community

This includes images used within school publications such as school newsletters and Class Dojo, to share information/celebrations with parents of children in the school. Parental permission will be given through the consent form completed on admission, for the use of images in these circumstances. Personal information, such as names, will not be included unless permission has been granted.

Sharing images with a wider audience

Images placed on the school website/Facebook page and photographs used within the press will only be used where it is of benefit to the school, e.g. in demonstrating an aspect of the school which is most effectively displayed with children in the picture. Examples of this might be: publicising school successes such as winning an award; showcasing events such as performances; and for school visits. Parental permission for such images will be through the admissions consent form.

A list of consent is held by the school office.

Monitoring

Staff and Governors will review this policy every three years, taking into account advice and guidelines provided by local or national Government.

The Headteacher will monitor the implementation of this policy and will ensure that all staff are aware of its contents. Procedures set out within this policy will be maintained until the policy is reviewed. Any changes made to this policy will be communicated to parents as necessary.
